

Transpacific Cleanaway is proud to support AstraZeneca

Transpacific Cleanaway is working in close partnership with AstraZeneca to assist them in achieving their environmental sustainability and financial goals. This includes:

- Assisting AstraZeneca in increasing their recycling rates, helping to divert waste from landfill
- Providing an expert, consolidated and holistic waste management solution covering three operational sites
- Proactively driving continuous improvement initiatives to better handle waste streams
- Reporting on all service activities to ensure goals and key performance indicators are being achieved
- Providing a transparent service in accordance with relevant legislation and regulatory licensing requirements

Transpacific Industries Group Ltd provides integrated total waste management, industrial solutions, facilities management and transport solutions to customers across Australia and New Zealand and parts of South-East Asia.
