1. Variations in appearance may occur in the directory due to the use of different visual media. This proof is shown in a different format (on a computer monitor or printed on a private printer) from the Yellow Pages® directories. Proof elements such as colour definition, registration, paper quality or screen resolution may vary depending on your computer's set-up. Due to the large distribution of Yellow Pages® directories, the print directories must be printed on lightweight paper through high speed presses. It is therefore impossible to match the quality of this proof in the Yellow Pages® directory and the customer acknowledges and accepts this fact.
2. This advertisement has been prepared by Sensis Pty Ltd for inclusion in the Yellow Pages® directory. All rights in this advertisement (other than trade marks or material or wording owned by you) are owned by Telstra Corporation Ltd. Neither the entire advertisement or images therein are to be reproduced or used in any manner without the prior written consent of Sensis Pty Ltd.
