

# Superior Rubber

Superior Rubber's Quality System ensures that customers will be supplied with the product quality they expect.

Superior Rubber is behind some of the biggest companies worldwide and is **ISO9001 accredited**. Our product range covers all areas of industry and manufacturing from leisure and defense, to mining and agriculture, medical and construction and to automotive and aerospace.

We specialize in all types of synthetic and natural rubber and a wide range of plastic polymers including urethane.

At Superior Rubber we will always strive to ensure our customers receive deliveries on time every time, receive the best back up service available and receive the best technical assistance.
