

BUILDING CERTAINTY

Mainzeal operates nationally throughout New Zealand through three regional hubs with area offices located in Auckland, Hamilton, Tauranga, Palmerston North, Wellington, and Christchurch.

VECTOR ARENA

As the first building of its kind constructed in New Zealand, the Vector Arena has already shown, in the short period since it opened, what a magnificent asset it has already become.

JELLIE PARK POOL REDEVELOPMENT

It took Mainzeal only 14 months of construction activity to complete the redevelopment of the Jellie Park Pool which comprised the demolition of 90% of the existing complex replacing the dated outdoor facility with a state of the art pool and recreation complex.

MAINZEAL AIMS TO PROVIDE A STIMULATING AND REWARDING BUILDING EXPERIENCE FOR ALL OF ITS PROJECT STAKEHOLDERS – WHETHER THEY BE A CLIENT, EMPLOYEE, SUPPLIER OR SUBCONTRACTOR OR SUPPLY CHAIN PARTNER.

The company having been in business for 40 years has built up an extensive portfolio of projects throughout New Zealand in the infrastructure, industrial, health, education, commercial, retail, hospitality and a wide range of government and local body sectors, ranging from prisons to the refurbishment of New Zealand’s Parliament Buildings to iconic stadium and events centre projects such as the Auckland’s Vector Arena.

It also has an extensive quality management system in place which is certified nationally to the ISO 9001, 14001, ASNZS4801 standards and is a member of the NZ Master Builders Association, New Zealand Green building Council and a founding member of Site Safe New Zealand.

Mainzeal has the capability to undertake projects on a national and local basis. Mainzeal customers are able to have a single point of contact within the company, working with a team that is totally committed to every project the company undertakes. Its focus of

‘Building Certainty’ and on becoming its customers’ ‘Construction Business Partner’ in addition to health and safety is foremost in its culture.

Mainzeal aims to provide a stimulating and rewarding building experience for all of its projects stakeholders – whether they be a client, employee, supplier or subcontractor, or supply chain partner. The company’s dedication to achieving excellence extends also through to the community in which it works ensuring all projects they are involved with are not only delivered in a sustainable manner they also meet both environment and community standards.

Mainzeal’s core values include committing to:

- Building relationships based upon respect and integrity
- Providing a stimulating and rewarding environment that encourages staff to advance to their full potential
- Relentlessly pursuing innovation, improvement, and professionalism in everything they undertake

- Ensuring everything the company does meets environmental and community standards
- Doing everything possible to achieve a healthy and safe work place
- Achieving sustainable business results that significantly exceed industry norms.

Mainzeal is a leader in the management and delivery of health and safety in the construction industry and at the coal face, they work closely with the other major construction companies and their supply chain to develop safety management systems and practices to eliminate the chance of any personal injury for all within the industry. Mainzeal hold a tertiary level in the ACC Partnership Programme, which is a direct reflection of the level of safety management practices operating within the company.

The commitment Mainzeal has made to the construction industry of New Zealand is unprecedented. 🌱

**THE SPRING HILL
CORRECTIONS FACILITY**

The Spring Hill Corrections Facility project was constructed on a 26 hectare Greenfield site and comprised 53 separate buildings consisting of 2,695 rooms as well as siteworks.
